

The Honorable Eric Burlison  
U.S. House of Representatives  
1108 Longworth House Office Building  
Washington, DC 20515

Dear Representative Burlison:

On behalf of the Professional Services Council (PSC) and our more than 400 member companies that provide essential professional and technology services to the federal government, I write to express our strong support for your introduction of the **Federal Improvement in Technology (FIT) Procurement Act**.

Your leadership in advancing this legislation comes at a critical time for the federal contracting community. The FIT Procurement Act offers practical, commonsense reforms that address long-standing barriers in the federal acquisition process, particularly for information technology and other rapidly evolving services.

Specifically, the Act will:

- Streamline procurement cycles to keep pace with technological innovation, ensuring that agencies have timely access to cutting-edge solutions.
- Enhance opportunities for businesses of all sizes to compete effectively by reducing unnecessary compliance burdens.
- Encourage greater use of commercial best practices, promoting efficiency and cost savings for taxpayers.
- Strengthen the government's ability to attract and retain innovative companies, fostering a more diverse and resilient industrial base.

These improvements directly align with PSC's mission to advocate for a modern, efficient, and competitive federal marketplace. By enabling agencies to acquire and deploy advanced capabilities more quickly and responsibly, the FIT Procurement Act supports better mission outcomes, stronger national security, and a more robust economy.

We would welcome the opportunity to work with you to help build bipartisan support for this legislation. Please let us know how PSC and our member companies can assist in engaging additional champions across the aisle to ensure this important reform effort receives the broad backing it deserves.

We deeply appreciate your commitment to improving the federal acquisition environment and addressing the challenges faced by contractors of all sizes. PSC stands ready to support your efforts

and work collaboratively with Congress and the Administration to ensure this vital legislation becomes law.

Thank you again for your leadership on behalf of American taxpayers and the federal contracting community.

Sincerely,

A handwritten signature in cursive script that reads "James W. Carroll". The signature is written in black ink and is positioned below the word "Sincerely,".

James Carroll  
Chief Executive Officer  
Professional Services Council
